Machine Shop Intern	<ul style="list-style-type: none"> Increasing efficiency of ongoing production. Applying OEE and TEEP techniques. Implementing the concept of Hidden Factory 		
ACADEMIC PROJECTS			Jun 2021 – Nov 2021
Designing and fabrication of adjustable wheelchair	<ul style="list-style-type: none"> This wheelchair works on pneumatic cylinders operated by a pedal given near the footrest. Cost efficient for mass production, an ergonomic and easily usable design for patients. Adjustable cylinders provided for specially abled or severely injured patients which can carry them from the bed itself. Seat of the wheelchair is such that patients need not move for excretory processes.
